

Inspection After Applied Coating

Dry Film Thickness

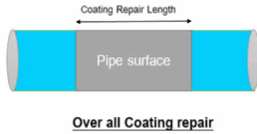

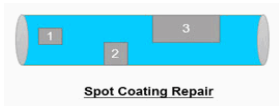

DFT Equipment : aaa

Brand : ddd

Model : ddd

S/N: sss

Position No.	Coating Repair type	Dry Film Thickness Around New Coating (µm)				Avg.DFT
		1	2	3	4	
1		2.00	44.00	22.00	33.00	25.25
					Minimum(mm)	2.00
					Average(mm)	25.25

Number of DFT Inspection

- Coating Repair Length < 0.5 = 1 Position
- Coating Repair Length = 0.5-5 = 2 Position
- Coating Repair Length > 5 = 3 Position

Requirement

- Minimum > 500 Micron
- Average > 650 or Coating Specification

Holiday Test

Test Method:

Brand: aaa

Model : ddd

S/N: ss

Test Voltage (kV) : 3

Remark :test
